- Higher Secondary Education Examination from Kalyani Pannalal Institute in 2008.
- Secondary Education Examination from Charsarati Kendriya High School in 2006.

SPECIAL PAPERS

Applied Multivariate Analysis, Advanced Design of Experiments, Survival Analysis, Advanced Operation Research.

ACADEMIC PROJECTS

- Title:** Linear increment in efficiency with the inclusion of surrogate end points.
- Description:** Simulated 1000 observations and introduced two treatments A & B and estimated the linear increment when 70% true end points of treatment A & 60% true end points of B are absent with the help of 100% surrogate points.
- Title:** A Study of Performance of an Elementary School under California Department of Education.
- Description:** Determined what factors are related to school performance, 400California elementary schools were randomly sampled from California Department of Education's API dataset for the year 2000. A number of measures related to school performance were collected, including a measure of academic performance: API 2000 (academic performance index, on a scale of 200 to 1000; a composite score indicating a school's overall academic performance, based on state-wide testing) as well as other attributes of elementary schools thought to be related to school performance: class size, enrolment, percent of students receiving free lunch, etc.
